NAME: John Matunga

MISSION TITLE: The Builder of Light and Opportunity

CREATOR: God - The One who gave me purpose before birth

SCANNABLE IDENTITY: JMATUNGA - Justice, Maker, Awakener, Tunga (Builder)

PURPOSE STATEMENT

I, John Matunga, was not born to follow the world - I was born to create what the world needs.

I am not here to be liked by all, but to be remembered by the future.

My hands, voice, mind, and body belong to my Creator, and I will use them fully for my mission:

to unlock opportunity for the forgotten, to build tools that uplift, and to light a fire in the next generation.

VISION

I will become a living system that builds other systems - a man whose name becomes a symbol of help, progress, and divine action.

I will raise builders from villages, feed the minds of graduates, and turn ideas into opportunities.

Let them scan my name and see the future. Let them touch my work and feel hope.

CORE TOOLS I USE

- Artificial Intelligence - to multiply my efforts and speed up creation
- Programming - to build systems, apps, websites, and digital solutions
- People - my greatest asset: youth, students, dreamers, and doers
- Faith - to keep me grounded in truth and unstoppable in spirit
